Did you hear about the new school? We have two parts, a preschool and an elementary school. The elementary school has a big recess area with two basketball hoops and two goals for soccer. There also are two covered areas and behind the school there is a sports area. We have a lot of space and there is a separate class reserved for art and the daycare. We also have a big cafeteria with a kitchen (see Antoine's article) a big library and a sleeping room for the little ones.

The preschool is neat too. The TPS class is really big. The class is yellow and there are nine students. The PS class is big too but actually all the classes are big.

The PS class is pink. There are twelve kids in the class. The MS class is

blue-green. The GS is blue and white and there are twenty students. The preschool even has it's own recess area. You should take a tour if you haven't already!
