Hurricane Harvey

By Marion and Maureen

Hurricane Harvey, which began as a tropical depression in the Gulf of Mexico on Wednesday August 23rd, rapidly escalated to a category 4 storm as it made its way towards southern Texas with 125mph winds! People are scared and sad in their homes. In Texas there is lots of flooding now. In Mexico there was an earthquake also recently. Irma is also a Hurricane, in Florida. Jose is another one coming towards the Caribbean. These weather patterns are a new trend.

Cars

Have you ever wanted to drive an automobile that has autodrives? Well the new model X, by Tesla does just that. It also has wifi and a front screen for the driver. When its not in use there is a fingerprint lock. It is also electric powered and has wing doors. If you drive it you will be more than amazed.

CLIMATE CHANGE

By Raphael and Valentin

The earth's climate is changing. It is getting warmer. Why? Because of human activity. Humans are polluting and CO₂ is everywhere in the air. That means that the heat that comes from the sun is blocked between the CO₂ and the Earth's surface. (See schema 1 below.) You can also do an experiment to see this phenomenon. Take a ball and bounce it off the floor all the way to the ceiling. (See schema 2) If there is no CO₂ ceiling that the heat stays less time in the atmosphere.

What are the consequences? The CO₂ doesn't only make heat it makes twisters, earthquakes, tsunamis and hurricanes. What can we do? The only thing we can do is to pollute less.

MOVIE REVIEW By Yasmine and Gillian

Today we are going to talk about the film of the summer: The Son of Bigfoot. The creators are Ben Stassen and Jeremie Degruson. The film came out of August second, 2017. The duration of the movie is 92 minutes. It is a film for all those who like adventure. Here is a brief summary. Adam, a dreamy and solitary teenager, endowed with supernatural powers, decides to search for his father, who has gone missing for years under mysterious circumstances. His investigation leads him to the meeting of a magic and legendary creature; Bigfoot! And there begins an extraordinary adventure in the forest with lots of adorable animals. They don't know that a dangerous organization, HARICO, is on their tracks and want to catch Bigfoot. We really think you are going to like the film.
